SHARPENING YOUR COMMUNICATION EDGE: THE ART OF LISTENING, THE POWER OF SPEAKING

In the age of empowerment, teamwork and constant change, there is no more valuable skill for leaders to develop than effective communication. In this workshop you will learn how to quickly connect with an audience, how to sell people on listening, how to keep your presentation from sounding rehearsed even when it is, and how to craft a message that gets results. You'll learn how to deal with tough audiences and how to use humor, participation and stories effectively. You won't have to speak in front of the group, but you will participate in exercises during the day that will help you make others take notice whether you are presenting new ideas to your boss, contributing to a discussion, or trying to persuade an audience to action.
