RELATIONSHIP MANAGEMENT: TEN SKILLS LEADERS NEED TO GET THE BEST FROM OTHERS

What does it take to get the best performance out of people today? Personal Relationships! No longer can you just tell people what to do. Instead, you must informally seek and build commitment among your team members to do their best. In this session you'll discover new, research-based, techniques, which will help you do that. We'll learn how successful leaders shape their work environments to achieve optimal performance, get others to feel proud of their work, show they value others' contributions in surprising ways, offer feedback that really helps, cope with the natural frictions that arise when people work together, and create a meaningful workplace where people, and the organization, can prosper.
