Session Description

Learning to thrive can help women leaders succeed despite the challenges they face. Discover how to become a more self-confident, emotionally intelligent, and resilient leader by improving your well-being. Learn how to boost levels of employee engagement and performance by creating a positive workplace where everyone is thriving. This workshop presents a model of well-being and describes how thriving impacts leadership success. Participants will learn well-being practices that can be used to enhance their leadership skills and optimize the performance of their teams.
