DEVELOPMENTAL AND PERFORMANCE-BASED COACHING FOR LEADERS

Your individual development plan may be the single most important document to advance your career. You will depart this workshop with your personal plan and the skills and tools to coach and develop Millennials and other career minded staff members on your team. Participants will learn and experience the connection of effective coaching and feedback to each managers team to be able to improve their ability to execute consistently. In the majority (around 70%) of executive failures, the real problem isnt bad strategy. The real problem is bad execution, according to the Fortune Magazine article titled, "Why CEOs Fail". At its core, execution comes down to setting clear expectations and regular coaching and feedback.
