Sep 20: Nobody Wins the Blame Game: Building an Accountable Workplace

Business author and consultant Tom Peters once claimed that the most exercised part of the human body in corporate America is the index finger. This shouldn't be surprising given the amount of blaming, accusing and finger-pointing that occurs in workplaces every day. Why aren't employees more accountable, i.e. willing to answer for the outcomes of their choices, actions, and behaviors? The answer is simple: they fear punishment when things go wrong. But research shows organizations that encourage learning from mistakes and discourage finger-pointing tend to be more successful. When constant threat of rebuke is eliminated, employees can focus on doing great work rather than worrying about being chastised.
