ACCELERATE PRODUCTIVITY: HOW TO STAY FOCUSED AND GET MORE DONE EVERY DAY

You don't have time to do everything; only time to do what matters! This virtual program is perfect for anyone who wants more control so they can manage their time, focus their attention, and engage with their team. In this challenging environment of doing more with less and remote work, even the most productive person can often feel distracted or overwhelmed. If we can get clear about the activities that make the biggest difference to our productivity, manage our distractions and create environments that allow us to focus, we can regain control of our schedule and free ourselves up for what is most important. In this program you will learn how to "unplug" from the constant barrage of disruptions and "plug in" to the tools, strategies, and mindsets that allow us to harness our attention to reach our highest potential.
