HOW TO FOSTER CREATIVITY AND INNOVATION ON TEAMS

Creativity is fundamental to business innovation and progress. In a recent study by IBM, over 1600 CEOs rated creativity as one of the number skills for business success. Engendering creativity in a team is always challenging, and even more so in remote and hybrid working environments. This practical training will introduce you to tools and frameworks that will help you foster creativity and innovation in your teams. The course is designed for busy managers, project leaders, and senior individual contributors who are looking to adapt in a fast-paced, challenging work environment by maximizing the innovation capability of their teams. The focus will be on what leadership choices will help team members be more creative and innovative.

Creativity involves the generation of new, imaginative idea and is the first step in the innovation process. Creativity and innovation are related, but innovation goes one step further. In innovation, we start with creativity and we need to also engage in realistic planning and follow-through. In team leadership, we call this the opening (creativity) and closing (planning and follow-through) behaviors of the team lead. This training will introduce you to techniques that support both aspects of the innovation process and how to alternate between them.

The Big Five Personality Traits (Openness, Conscientiousness, Extraversion, Agreeableness, and Neuroticism) influence how the team leader and members can most effectively contribute to innovation and high performance. Dr. Kelly will share her research on how to utilize these personality dimensions for team collaboration around new ideas and their effective implementation.

A key is to bring awareness of these traits in yourself as a leader, and that of the team members to tap into the intrinsic motivation that leads to high engagement and performance. We will cover techniques such as brainstorming, idea quotas, wildstorming, crowdsourcing and the Delphi method to add to your innovation tool kit. This training will definitely enhance your ability to managing for innovation-driven performance.
