HOW TO THINK STRATEGICALLY AND MAKE AN IMPACT

Strategic thinking is a rare and valuable competency that is needed at all levels of the organization. It is the number one development requirement for the next generation of leaders. Those who have it will see more opportunities for contribution and for advancement. This program will help you understand what it means to "be strategic" and how to make a broader impact in your organization. A competent strategic thinker tolerates ambiguity, notices weak signals, defines the core challenge, and designs and communicates an effective response with a winning strategic logic. Through interactive exercises and by studying real-world examples, the program will help you develop key strategic thinking skills which will serve you throughout your career.
