PROVEN STRATEGIES TO IMPROVE ENGAGEMENT AND ACCOUNTABILITY ON YOUR TEAM

Typical companies have a 29% engagement rate. This is abysmal and handicaps success at every level. A Company of Owners was written to spark an evolution in companies and organizations leading to a fully engaged team where everyone acts and performs like an owner.

How much better would your company be if ...

- Every team member came to work every day excited about the company's vision and their role in making it a success?
- You had a company full of high-performing people?
- You had a common language within your company that helped drive performance?
- Its culture was team-oriented, service-driven and supportive of one another?
- Everyone acted like an owner?

DR. DAREN MARTIN
