MASTERING YOUR THINKING: THE LINK BETWEEN CRITICAL THINKING AND YOUR NEED TO PERFORM

Leaders are busy. Super busy. It's not as though that's going to change. In reality, people have become experts at doing - constantly being on to perform - causing us to minimize the importance of creative and critical thinking, of ideating and sound decision making. We need to sort out a much better investment in our time to make it happen. In this session we will explore the concept of open thinking, a holistic approach to reflection, decision making and action that leads to successful outcomes. You will leave with practical techniques to improve your thinking, decision-making and doing to take your performance to the next level. "Dream. Decide. Do. Repeat." It's your new mantra of 'open thinking.'
