

WIRED TO RESIST: THE NEUROSCIENCE OF CHANGE
with Dr. Britt Andreatta
Complimentary to IMS Members (US) per person

VIRTUAL SESSION (1-HOUR)

WIRED TO RESIST: THE NEUROSCIENCE OF CHANGE

The pace of today's change is pushing the limits of even the most nimble organizations. Change occurs in a myriad of ways from shifting technology to reorganizing functions to seeking new customers and operating globally. And no matter the size, every change requires new learning. Recent discoveries in neuroscience illuminate how we learn, respond to change and ways we can maximize both flexibility and resilience.

In this program, Dr. Britt Andreatta will share the latest discoveries about the brain, and how to harness human biology to reduce resistance to change and change fatigue. Author of *Wired to Resist* and *Leading Change*, she will provide key principles that maximize the brain's capacity to learn and embrace change. Leave this interactive session with new strategies for intentionally building the professional capacity of people across all functions of your organization.

In this interactive program, you will:

- Learn how all change activates the survival and failure centers in the brain
- Discover how to use the new Change Quest Model™ to assess and predict the impact of different types of change
- Identify ways to intentionally increase the resilience of your people and organization

DR. BRITT ANDREATTA

Dr. Britt Andreatta is an internationally recognized thought leader who creates science-based solutions for today's challenges. Britt's industry accolades include being named one of the "Top 20 L&D Influencers" for 2021 and 2021 and a "Top 100 HR Influencers in 2021" (top 20 for leadership development).
