VIRTUAL SESSION (3-HOUR)

CRITICAL DECISION MAKING FOR SENIOR LEADERS

This program is designed for senior leaders to refine their decision-making prowess. The program starts by imparting the essentials of making sound decisions, addressing cognitive biases, and providing methods to circumvent the common pitfalls of decision-making. Practical exercises are incorporated to facilitate real-world application of these concepts.

As the program progresses, "Collective Decision Making" is dissected to examine the efficacy of group decisions and strategies to prevent groupthink. Collaborative activity further encourages the practical application of these insights.

The program's final segment focuses on "Advanced Decision-Making Strategies" by empowering leaders with creativity, the ability to learn from past outcomes, and the proactiveness of threat assessment.

This program ensures leaders have cutting-edge skills for achieving strategic decision-making excellence.
