VIRTUAL SESSION (3-HOUR)

THE RESILIENT LEADER: PROVEN STRATEGIES TO SUSTAIN ENERGY AND NAVIGATE CHALLENGES

This program moves beyond typical "company culture" solutions, focusing on practical, strengths-based strategies to cultivate a more engaged and high-performing workplace. Participants will uncover their top three energizing activities at work and learn how to harness them to enter flow states more often, boost productivity, and minimize tensions with colleagues.

For individual contributors, the program provides tools to amplify personal strengths, build resilience, and find greater purpose in daily tasks. Team leaders will gain valuable insights into fostering team strengths, nurturing a sense of belonging, and managing workloads with flexibility, creating a more cohesive and energized workforce.

Through interactive exercises and collaborative discussions, this program bridges the gap between personal development and operational success. It empowers participants to "reprogram" their approach to work. Attendees will leave with actionable strategies to sustain energy, maximize their strengths, and create meaningful impact in their roles.

JOSH ALLAN DYKSTRA

Josh Allan Dykstra is the world's foremost practitioner on the Future Of Work and Human Energy™, helping audiences create the future they want to work in by reimagining the way organizations and people interact. He has served a client list of companies that collectively employ over a million people.
