VIRTUAL SESSION (3-HOUR)

ONE DAY MBA: MASTERING THE FUNDAMENTALS OF BUSINESS LEADERSHIP

Thriving in the digital era demands strategic vision and a comprehensive understanding of business dynamics. Yet, many leaders and their teams struggle when workplace expectations extend beyond their core expertise. Despite abundant data, many find it challenging to fully grasp their organization's strategic objectives, competitive positioning, operational processes, and key performance metrics.

This program leverages tools and techniques from top global MBA programs to empower leaders with essential skills. Participants will learn to effectively communicate strategy, evaluate financial performance, manage risks, and foster accountability. The session also explores how sharpening business acumen can ignite curiosity, cultivate a culture of success, and drive transformative career growth. Leaders can enhance their influence and lead with greater impact by bridging the gap between strategic priorities, financial realities, and performance expectations.

DR. NOAH BARSKY

Noah Barsky, PhD is an award-winning professor in Graduate and Executive business programs at the Villanova University School of Business. He has also taught with the Institute for Management Studies since 2001. Dr. Barsky develops and delivers executive education programs for various Fortune 100 companies, professional services firms and industry associations.
